

RENTAL & INSTALMENT CHARGES/TERMS FOR MATELECT PRODUCTS

Most Matelect products are available for rental or can be purchased in installments. All the options are described below and illustrated with reference to one of our standard products.

RENTAL OPTION

Items are available on monthly, weekly or daily rates. To calculate these rates, take the total purchase price excluding delivery (obtainable from our current price list) and divide by 8 for the monthly rate, by 16 for the weekly rate and by 64 for the daily rate. Please note that in all cases a minimum rental period of 1 week applies with further days or weeks being charged as described above. Rental charges will apply from the first full day after delivery to, and including, the day that the agreed rental period expires. One extra day without charge is allowed for items to be returned to Matelect.

Rental incurs no obligation on the part of the customer to purchase the items, however should the customer wish to purchase the items rented, 60% of the rental charges incurred to date will be refunded from the list price of the items concerned.

Matelect will invoice for rental charges plus VAT on a monthly basis. All risks insurance for our instruments when in the rental customer's keep is the responsibility of the customer. Customers should ensure that they hold & maintain appropriate insurance cover for our instruments. Transit insurance is required for any goods returned by the customer, to Matelect, other than those collected by Matelect representatives.' Items should be insured for their list price value.

Items are supplied fully tested and calibrated but whilst Matelect will do everything in its power to replace a faulty unit, we cannot guarantee immediate supply of a replacement instrument should a fault occur during the rental period. Refunds of unused rental charges are provided in such circumstances.

Matelect will deliver an instrument to any location on the UK mainland and arrange for its return. A one-off charge is made for this service. Delivery includes a full description of the controls of the item(s) concerned. The charges are as follows:

Within 100km (60 miles) from London	£195.00 (ex VAT)
Beyond 100km but within 500km	£295.00 (ex VAT)
Over 500km (3 12 miles)	P.O.A.
